MEMORANDUM

December 1, 2023

TO: Board of Directors and Karl Ohlsen

FROM: Jim Griffiths, Finance Director
Wes Williams, Assistant Finance Director
Kevin Carpenter, Financial Analyst II

RE: 2024 Interest Rate Recommendations
Water Pollution Control Revolving Fund (“WPCRF”)
Drinking Water Revolving Fund (“DWRF”)
Authority Interim Loan Program (“Interim”)
Authority Small Hydro Loan Program (“SHLP”)
Green Project Reserve Loans (“GPR”)

The Authority Board of Directors establishes and adopts loan rates each year.

The WPCRF and DWRF Intended Use Plans (“IUPs”) require annual adoption of rates. In addition, the Authority Board adopts the Interim and SHLP loan rates each year. The Interim and SHLP loan programs are Authority programs and not governed by the IUPs.

USDA Rural Development (USDA) and Colorado Water Conservation Board (CWCB) rates for comparison purposes are below:

CWCB 2023*	Interest Rates	USDA 2023*	Interest Rates
Low income	2.80%	Poverty rate	2.375%
Middle income	3.20%	Intermediate rate	3.125%
High income	3.60%	Market rate	3.875%
Hydroelectric	2.00%		

*Neither CWCB nor USDA uses interest income (admin fee) to cover the costs of operating their programs.

Recommendation: Staff recommends the Board approve recommendation option 2 for 2024 as well as the changes to the leveraged loan subsidy and green project reserve fund as outlined below for 2024:

Loan type: Base WPCRF & DWRF	Existing 2023 rates	Recommended 2024 rates Option 1	Recommended 2024 rates Option 2
Direct Loan (not a DAC)	3.00% (20yr); 3.25% (30yr)	3.25% (20 yr); 3.50% (30 yr)	3.25% (20 yr); 3.50% (30 yr)
DAC Category 1	2.00% (20yr); 2.25% (30yr)	2.25% (20 yr); 2.50% (30 yr)	2.50% (20 yr); 2.75% (30 yr)
DAC Category 2	1.00% (20yr); 1.25% (30yr)	1.25% (20 yr); 1.50% (30 yr)	1.50% (20 yr); 1.75% (30 yr)

Loan type: BIL WPCRF & DWRF (Emerging contaminant funding is 100% PF)	Existing 2023 rates	Recommended 2024 rates Option 2 (same as Direct Loan)	Recommended rates for Base Program DACs (up to \$3M**)
BIL DWRF Lead Service Line	3.00% (20yr); 3.25% (30yr)	3.25% (20 yr); 3.50% (30 yr)	Current DAC Cat 1 or 2 rate
BIL DWRF General Supplemental	3.00% (20yr); 3.25% (30yr)	3.25% (20 yr); 3.50% (30 yr)	Current DAC Cat 1 or 2 rate
BIL WPCRF General Supplemental	3.00% (20yr); 3.25% (30yr)	3.25% (20 yr); 3.50% (30 yr)	Current DAC Cat 1 or 2 rate

** DACs get the reduced DAC interest rate for up to \$3 million of BIL repayable loan. For loans of over \$3 million, DAC’s will receive the first \$3 million at the Category 1 or Category 2 rate and the remaining loan at the prevailing non-DAC Direct Loan interest rate.

Loan types – Interim Loan, SHLP, Leveraged Loan Subsidy, GPR	Existing 2023 rates	Recommended 2024 rates
Interim Loan	4.00% (up to 1 yr) & 1.00% on undrawn portion per annum	No Change
SHLP	2.00% (20 yr) 2.25% (30 yr)	No Change
Leveraged Loan Subsidy	70-80% of Authority’s AAA Bonds	70-85% of Authority’s AAA Bonds
Green Project Reserve***	0.50% (if 20% of project costs are certified Green) 1.50% (if 15% of project costs are certified Green)	Match the approved DAC Category rates

***GPR interest rates are the same regardless of loan term.

MEMORANDUM

December 1, 2023

TO: Board of Directors and Karl Ohlsen

FROM: Jim Griffiths, Finance Director

**RE: Water Pollution Control Revolving Fund ("WPCRF")
Bipartisan Infrastructure Law ("BIL") Supplemental Funds
Principal Forgiveness ("PF") – New Limit Recommendation**

The WPCRF BIL Supplemental capitalization grants for reference:

- 2022: \$14,236,000 (actual) – 49% must be provided as PF
- 2023: \$16,674,000 (actual) – 49% must be provided as PF
- 2024: \$17,000,000 (estimated) – 49% must be provided as PF

The Authority Board of Directors approved limiting WPCRF BIL Supplemental funds to disadvantaged communities ("DACs") only. The Authority Board further limited the PF to \$1.5 million per DAC borrower per project.

Staff recommends that the **PF limit be decreased to \$1.0 million (from \$1.5 million)**. A \$1 million limit allows Staff to spread funding across more projects while still providing substantial PF to entities to keep user rates lower and projects more affordable. Staff estimates that approximately two to three more projects per year may get funded because of this change.

RE: Drinking Water Revolving Fund ("DWRF")
Bipartisan Infrastructure Law ("BIL") and Base Program Principal Forgiveness ("PF")
Limits and Recommended Changes – Semi-Annual Review

State Revolving Fund ("SRF") Staff consistently reviews program demand, future projects and their estimated costs ("project pipeline"), and current, available levels of loan and PF funding. Staff has agreed to make PF limit recommendations at the June and December Board meetings, and additionally, as needed.

The DWRF Base capitalization grants for reference:

- 2022: \$13,846,000 (actual) – 26% must be provided as PF (\$3,599,960)
- 2023: \$8,650,000 (actual) – 26% must be provided as PF (\$2,249,000)
- 2024: \$1,043,280 (estimated) – 26% must be provided as PF (\$271,253)

Estimated project pipeline: \$67.4 million

The DWRF BIL Supplemental capitalization grants for reference:

- 2022: \$35,550,000 (actual) – 49% must be provided as PF
- 2023: \$36,884,000 (actual) – 49% must be provided as PF
- 2024: \$37,000,000 (estimated) – 49% must be provided as PF

Estimated project pipeline: \$86.4 million

The DWRF BIL Lead Service Lines capitalization grants for reference:

- 2022: \$56,015,000 (actual) – 49% must be provided as PF
- 2023: \$32,600,000 (actual) – 49% must be provided as PF
- 2024: \$33,000,000 (estimated) – 49% must be provided as PF

Estimated project pipeline: \$200.5 million

The DWRF BIL Emerging Contaminants capitalization grants for reference:

- 2022: \$14,927,000 (actual) – 100% must be provided as PF
- 2023: \$13,384,000 (actual) – 100% must be provided as PF
- 2024: \$14,000,000 (estimated) – 100% must be provided as PF

Estimated project pipeline: \$51.9 million

As a result of the decreased DWRP Base capitalization grants, and therefore decreased PF, in addition to increased demand coupled with an increased DWRP project pipeline, Staff has reviewed the current policies and limits and is recommending the following changes:

Tranche of Funds (Approximate Amount of Remaining PF Available)	Current PF Limits	Staff Recommended PF Limits*
DWRP Base (\$0)	\$2 million (DACs only)	\$1 million (DACs only)
DWRP BIL Supplemental (\$16.3 million)	\$5 million (BIL eligible)	\$2 million (DACs) \$1 million (BIL-eligible non-DACs)
DWRP Lead Service Lines (\$2 million)	No limit, subject to overall \$40 million PF limit	\$10 million
DWRP Emerging Contaminants (\$24.5 million)	No limit, subject to overall \$40 million PF limit	\$30 million (subject to prior Board approval of agenda item 7(d))

*These limits are subject to prevailing per-entity restrictions, with DACs being excluded.

Board Action: Staff recommends that the Board approve the recommended changes to the BIL and Base Program PF limits as outlined in the table above (far right column). The Board will consider this request on December 1, 2023.

MEMORANDUM

To: SRF Committee
From: DAC Subcommittee
Date: November 9, 2023
Re: December Cap/Max Review/Recommendations

Background/ Reason and Need

In order to provide consistent messaging, as well as be responsive to demand, SRF staff review and make recommendations regarding principal forgiveness (PF) caps and maxes at the June and December CWRPDA board meetings.

Recommendation: After reviewing the current PF limits and projects in the SRF pipeline, the DAC subcommittee recommends the following PF limits. With the exception of the Lead Service Line and DWRF Emerging Contaminants pots, these recommendations are based on current PF availability. Due to uncertainty about the size of capitalization grants, we felt uncomfortable making guesses about the amounts of future grants and available PF. However, our recommendations reflect the reduced funding level estimates made available over the past few months.

WPCRF BIL supplemental:

- **Current limit:** \$1.5 million PF limit
- **Recommendation:**
 - DAC: \$1 million PF limit
 - BIL-eligible non-DAC: \$0 PF limit
- **Rationale:**
 - Estimated available PF until next cap grant: approximately \$2.6 million will be available for the November 2023 and January 2024 application cycles. This estimate accounts for October 15 deadline WPCRF applications that are eligible for PF that are currently in the loan application review process.
 - Estimated project pipeline - \$29,350,943
 - Even though PF is likely to be exhausted, with the November or January applications, the subcommittee felt it was important to put a limit in place that would prioritize DACs in case additional PF becomes available before the next set of PF limit recommendations occur. Of the projected January WPCRF applications, eight are BIL-eligible and only three are DACs. A \$1 million PF limit for DACs allows us to spread funding across more projects while still providing substantial PF. The recommendation to move the limit for BIL-eligible non-DACs to \$0 is based on the limited funding in this pot and the disproportionate number of BIL-eligible non-DACs compared to DACs in the pipeline.

DWRF BIL supplemental

- **Current limit:** \$5 million PF limit
- **Recommendation:**
 - DAC: \$2 million PF limit
 - BIL-eligible non-DAC: \$1 million PF limit
- **Rationale:**
 - Estimated available PF until next cap grant: approximately \$16.3 million
 - Estimated project pipeline - \$86,436,841
 - Reduced base program funding was considered when making the recommendation for this pot. With less funding in the base program, it is more likely base PF will be exhausted and DACs will rely more heavily on funding through this pot. There are 19 DACs and 21 non-DACs in the pipeline through June 2024. While there is not enough available PF for all of the eligible projects in the pipeline, the recommended caps will help to spread the funds more widely. The \$2 million cap for DACs means around 8-9 projects could receive PF, or the \$1 million cap for non-DACs means about 16-17 projects could receive PF, instead of just 3 or 4 projects taking all of the remaining PF.

DWRF Base

- **Current limit:** \$2 million PF limit
- **Recommendation:** \$1 million PF limit
- **Rationale:**
 - Estimated available PF until next cap grant: approximately \$0
 - Estimated project pipeline - \$67,378,640
 - The \$2 million PF cap in this pot was due to a need to spend down additional subsidy funds that had accumulated to large levels over several years. There is no longer an accumulation of additional subsidy funds and the recommended cap reflects both this and the significant anticipated reductions to the capitalization grant.

DWRF Lead Service Lines

- **Current limit:** No limit currently, just the overall \$40 million PF limit
- **Recommendation:** \$10 million PF limit
- **Rationale:**
 - Estimated available PF until next cap grant: approximately \$2 million
 - Estimated project pipeline - \$200,486,240
 - The worst case funding scenario for the next cap grant is about \$25 million in total funds (about \$12.5 million PF). Based on about \$4 million remaining in the 2023 grant, a total of \$28 million would be available in 2024. Three projects including LSL replacement (Englewood, La Junta, and Greeley) are expected in January, two projects (Aurora, Canon City) are in the pipeline and may apply sometime in 2024. A PF limit of \$5 million (total LSL Loan of about \$10 million) ensures funding for the three projects in January (Englewood will take the maximum and Greeley and La Junta will need between \$2-\$10 million loans). Beyond Aurora and Canon City, additional projects will be entering the pipeline based on the responses to the LSL inventory grant program as well as the LCR rule requirement for inventories to be completed by October 2024 therefore setting a limit too low that prevents spend-down should not be a concern.

DWRF Emerging Contaminants

- **Current limit:** No limit currently, just the overall \$40 million PF limit
- **Recommendation:** \$30 million PF limit
- **Rationale:**
 - Estimated available PF until next cap grant: \$24.5 million (2024 EC funds expected is about \$11 million, bringing total funds to about \$36 million.
 - Estimated project pipeline - \$51,897,938
 - This limit is recommended because there are still not many emerging contaminants applications expected in the first half of 2024 and because WQCD received additional grant funding for PFAS projects. Projects in the pipeline are South Adams, Boone, Frisco, and Colorado City MD at a total estimated \$55 million, Thornton also has a project estimated at \$130 million but is not expected to need funding until 2025.

WPCRF Emerging Contaminants

- **Current limit:** No limit currently, just the overall \$40 million PF limit
- **Recommendation:** no change/no limit
- **Rationale:**
 - Estimated available funds until next cap grant: \$2.4 million
 - Estimated project pipeline - \$0.00
 - No new limit is recommended because there are still no emerging contaminants applications expected in the first half of 2024 and because WQCD received additional grant funding for PFAS projects.

Other Current Limits:

- **Per pot limit:**
 - BIL-eligible communities that do not also meet base program Disadvantaged communities criteria are limited to receiving BIL funding once from each of the following:
 - DWRF BIL Supplemental
 - DWRF Lead Service Line
 - DWRF Emerging Contaminants
 - WPCRF Emerging Contaminants
 - Disadvantaged communities may fund projects multiple times using BIL funding
 - **Recommendation:** no change
- **Overall \$40 million limit for PF received per entity per project**
 - **Recommendation:** If all of the above recommendations are approved, particularly the DWRF Emerging Contaminants limit, this limit will no longer be necessary or relevant.

MEMORANDUM

December 1, 2023

TO: Board of Directors and Karl Ohlsen

FROM: Jim Griffiths, Finance Director

RE: Drinking Water Revolving Fund ("DWRF") Loan Limit

Background Information:

Colorado's DWRF funded its first projects in 1997*. Since inception, Colorado's DWRF has provided more than \$909 million to Colorado drinking water projects.

The DWRF receives funding from Congress through the U.S. EPA via annual capitalization grants. These capitalization grants increase the overall capacity of the DWRF. In addition to the capitalization grants, there have been two instances that Congress has provided additional and separate funding: 1) 2009's 1-year American Rescue and Recovery Act ("ARRA"); and 2) 2021's 5-year Bipartisan Infrastructure Law ("BIL").

Availability of principal forgiveness ("PF") through the BIL, new drinking water regulations, and labor and materials inflation have significantly increased the demand for DWRF funds. A review of projects that are in various stages of planning and design within the DWRF indicates that several large upcoming projects could use all of the available DWRF capacity within the next 18 months. Many smaller communities rely on the DWRF to provide critical funding for smaller-sized projects.

Recommendation:

Staff recommends a loan limit of \$30 million per entity. Staff further recommends the following:

- PF received by an entity from the DWRF Emerging Contaminants tranche of funds does not count against this \$30 million loan limit if for the same project.
- PF received by an entity from the DWRF Lead Service Line tranche of funds does not count against this \$30 million loan limit if for the same project.
- Disadvantaged Communities ("DACs"), continue to be exempt from the 'one-time' funding rule.

*Four projects were funded in October 1997 including Arapahoe Estates WD, City of Englewood, City of Ft. Collins, and the Town of Grand Lake.
